

When: Next Meeting October 16, 2008

Where: Wallace Memorial Baptist Church 7 PM

Our guest speaker will be Mr. Frank Folsom, W4TEG. Frank has spoken to the club in the past and is always informative and entertaining. He is a RF engineer who has worked on just about every radio station in East Tennessee. He will be speaking on a subject of his choice, but no matter what the topic is, we will end the meeting wanting for Frank to share more of his knowledge and experience with us.
